EXPERIENCE

August 2023 – May 2024: I've worked on various multimedia projects at the Centro Cultural de las Fronteras. My main focus was on creating animations for the Inmersive Room, utilizing both 2D and 3D animation styles. I also participated in the planification, general design, video mapping and team organization of the videos. Some of the projects I was involved in include "Cimientos", "Somos Jóvenes Fest" and the Christmas exposition of the Inmersive Room.

January – May 2023: I was part of the editorial team of Internacionalización UACJ. I designed the documents and flyers for the Student Mobility Call of 2023, and Academic Stays 2024. Additionally, I made new guides and editions to the ones made for the UACJ exchange program. I also produced short motion graphics animations for the social media of Internacionalización UACJ.

ABOUT ME

Currently, I'm a student at Universidad Autónoma de Ciudad Juarez, where I'll be going through my ninth semester in my major: Digital Design of Interactive Media. My general score in my major is 9.84, and I've been awarded the title of Comprehensive Student. I've been part of different projects of the Inmersive Room at the Centro Cultural de la Frontera, and many of my school projects have been selected to be presented on the exhibitions of my major.
